

Cristián Rojas

Programmer and System Analyst - FullStack Developer

PROJECTS

2025 | GigLogic – Fullstack Developer

Comprehensive SaaS solution designed to optimize logistics and production for the event industry.

- **Backend:** Developed a scalable architecture using **NestJS** and **PostgreSQL**, optimizing inventory workflows and real-time production schedules.
- **Frontend:** Built a reactive user interface with **React** and **TypeScript**, prioritizing strict type safety and long-term maintainability.
- **DevOps:** Implemented containerization with **Docker** to ensure environment parity and streamlined deployment processes.

2025 | LatLong – Freelance Developer

- **Agrosolar Calculator:** Lead fullstack development, implementing a robust **REST API** with **Django REST Framework** (DRF) and a dynamic, high-performance frontend using **Vue.js** and **TypeScript**.
- **ETL Optimization:** Refactored and optimized a critical ETL module using **Python** and **Pandas**, achieving a 70% reduction in execution time and automating core business workflows.

2025 | Mapa La Chispa Digital – Fullstack Intern

- Developed a nationwide interactive mapping platform using **React**, **TypeScript**, and **Leaflet**, enabling complex georeferenced data visualization and analysis.
